# Urger Boycott of Farmers' Non-Partisan League Plans to Oust the Middlemen

The more ment of Congress over the rapid said to be an unusual state of affairs on the railroads because of the war, but it is a funny thing—there is always something unusual transfer is always.

The movement, which is headed by A. C. Townley, of North Dakota, swept the latter state at the last election and sent to Congress a news-

South Dakota and Montana. We will make a fight in Kansas, Nebraska and Colorado, but while the outlook in these states is encouraging the results are doubtful just now.

There is no intention at this time to make fights on other than state lines. Whether or not we will enter national politics is one of those things that will have to be decided by time. We realize that for the present, at least, we can get results only by confining our efforts to local movements.

In the states we are sure to carry next fall wheat is the local issue. The
